

NEUROACT[®] Terms of use

Annual fee

For use of the NEUROACT method in a clinic, school, company, or equivalent, an annual license fee is added, which is paid annually unless otherwise specified. The fee covers, for example, NEUROACT group treatment, individual treatment sessions, or school lessons based on the NEUROACT material.

Group License

The group license fee is USD 490 and is paid by the clinic, school, company, or equivalent using the method unless otherwise specified. The license is thus not linked to an individual therapist. Several therapists at a clinic can therefore use the same license. In addition, the license allows using the method in the format that suits the clinic or the equivalent best.

Individual License

For individual NEUROACT providers, for example therapists with their own clinic, the license fee is USD 99 (excl. VAT) per year.

Exception

Non-profit organizations are exempt from the license fee.

Included in the license

The license includes a digital platform that provides the NEUROACT manual including all work materials. Included in the license are:

- The complete NEUROACT manual including updates
- Adapted written work materials (info sheets, worksheets, homework sheets, illustrated metaphors, PowerPoint presentations)
- Adapted audio mindfulness and acceptance exercises
- Videos that clarify ACT techniques
- Interview templates for inclusion of participants
- Valid and reliable assessment instruments for evaluation
- Scientific articles, presentations and lecture material about the method
- A digital platform for 24/7 access to the material
- NEUROACT certification
- NEUROACT online group coaching once a year
